# About the S. June Smith Center

The S. June Smith Center supports children with developmental needs through education, therapeutic services, and family-centered programming. We seek to educate children, support families and strengthen communities through our Infant/Toddler and Preschool Programs, as well as Project Together, Community Outreach, SPLASH, Miracles in Motion, Community Training, and Tiny Miracles.

Today, the S. June Smith Center continues the legacy of Dr. S. June Smith, Alpha Sigma Alpha Kappa Kappa, by creating an inclusive community for every child, regardless of ability. We work within a child's natural environment to create patterns for lifelong learning that will benefit the child, the family, and their community.
